

THE DELAWARE VALLEY GREEN BUILDING COUNCIL PRESENTS

GREEN LEASING FOR TENANTS: LEED BY EXAMPLE

WHAT DOES "GO GREEN" MEAN?
WHAT ARE "GREEN" OR LEED BUILDINGS?
WHAT ARE THE BENEFITS?
HOW DO WE GET STARTED?!

Panelists -

Kirsty Halliday- *SCA Americas*

Brian Cohen- *Liberty Property Trust*

Jim Kerr, LEED-AP- *IMC Construction*

Dan Tisak, LEED-AP- *Bala Consulting Engineers*

John Partridge, LEED-AP- *Partridge Architects*

Panel Discussion

Moderated by **Chris Major**, LEED-AP- *CB Richard Ellis, Inc.*

Green Leasing can improve your bottom line, employee and environmental performance. The most effective & economical strategy to "go green" is through corporate real estate. LEED (Leadership in Energy and Environmental Design) is a voluntary, consensus based rating system for Green Real Estate.

Come to hear corporate tenants discuss What, Why & How to use Green/LEED Leasing Strategy. See Green with a tour of SCA Americas LEED-CI Gold Corporate Headquarters. Get real economic data and answer to your questions from design, construction and development experts. All Panelists or Special Networking Guests lease, build or own Green/LEED corporate offices. Learn from their experience, ask questions and network over light refreshments.
